Subject: Request for urgent intervention - Telco facility approved for construction on Crown Land

To: curlcurlagoon@gmail.com <curlcurlagoon@gmail.com>

Dear Paula,

Thank you for your email and letter dated 15 December 2020. My staff have reviewed the documentation provided with Development Application DA2020/0661 which was approved by Northern Beaches Council on 14 October 2020, together with the officer assessment report. While not having a position on the relative merits of the proposal, it appears as though the due application process has been followed correctly, and considerable detail gone into assessing the application by the Council.

While the reserve is Crown Land, the Northern Beaches Council is the designated land manager and as such, has been delegated the responsibility to manage the site in accordance with its legislated role. It is therefore within its responsibilities to determine whether the proposed development is an appropriate use of the Crown Land reserve.

Regards
Richard
